

Telephone Recording Solutions

**TCR-2000
ONLY
\$560+GST**

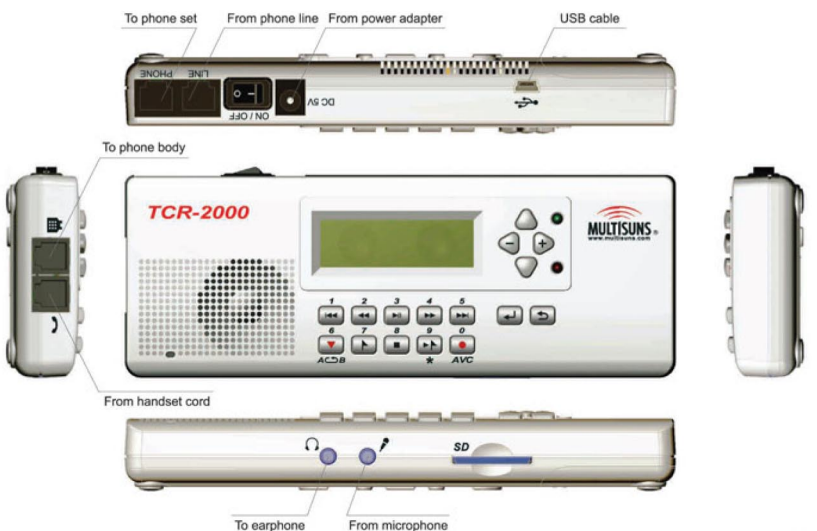

The global financial crisis started to show its effects in the middle of 2007. Around the world stock markets have fallen, large financial institutions have collapsed, and Governments in even the wealthiest nations have had to come up with economic rescue packages, including strict new regulations for protecting customers against financial misconduct. What steps are you taking to protect your business?

SMBs (small-medium businesses) and home based firms typically have lower levels of technology ownership compared to larger firms. Today, many insurance, securities and stock brokers, professional consultants, real-estate agents and investment advisors (among others) are confronting new challenges in their efforts to manage transaction risks, improve customer security and satisfaction, and comply with the latest regulations.

We can help. The Microlog TCR-2000 is the market-leading call recording solution for single-line applications. Record your telephone line, meeting rooms, conferences, or any other situation where knowing what was said is critical to reducing transaction risks. This all-in-one solution comes with all the capabilities you need, at a price you can afford.

TCR-2000

The affordable digital recorder that completes your daily voice recording requirements.
